

2019 National Eating Disorder Awareness Week Events

February 24, 2019 @ 2-5pm

**The Little Theatre
240 East Avenue
Rochester, NY 14604**

Film screening of the Documentary “*Killing Us Softly 4.*” This newest edition of Jean Kilbourne's influential and award-winning *Killing Us Softly* series shows how the advertising industry continues to reinforce, and glamorize, a regressive and debased notion of femininity. Using a wide range of contemporary print and television ads, Kilbourne lays bare a misogynistic fantasy world of undernourished, oversexed, and objectified women, and examines these images against the real-world backdrop of eating disorders, men's violence against women, and the political backlash against feminism. At once provocative and inspiring, *Killing Us Softly 4* challenges young people to question traditional gender norms and think critically about the fundamental relationship between representation and power. At the conclusion of the film, we will have a panel discussion of the film.
